Virtual Virginia instructors are assigned mandatory professional development and professional learning opportunities throughout the 2023–2024 contract period.

Virtual Virginia full-time teaching positions are staffed annually and assigned based on student enrollments. Each full-time instructor is assigned full-time equivalency enrollments or a combination of projects/duties and enrollments equal to full-time instructor status. Virtual Virginia administration may authorize extra supplements for curriculum development, program projects, or other program needs that an instructor performs in addition to full-time instructor status.

Full-time instructors work Monday through Friday with regular office hours assigned by Virtual Virginia administration. During office hours, instructors should be online; managing their courses; actively communicating with students, families, and schools; and completing other assigned tasks.
